

# Hearts & Hands FOUNDATION

The Hearts and Hands Foundation is a not-for-profit Registered Canadian Charitable organization That assists the Mayan people of Guatemala in Improving their health and education While fostering cross-cultural understanding.

1 in 5 Mayan children under 5 years old dies of a preventable disease. Hearts & Hands is fighting this through the introduction of a unique cooking stove that reduces eye and respiratory diseases, prevents burns, and reducing wood consumption, fuel gathering, and deforestation.

The majority of Mayan children quit school by grade 2. This is due to a severe lack of facilities, qualified teachers, and learning materials. Hearts & Hands is fighting this through school construction, training teachers, and developing and implementing bilingual (Mayan/Spanish) school materials.

Your participation, sponsorships, and donations help fund Hearts & Hand's programs in Guatemala. To learn more, make a donation, or participate in a Hearts & Hands project go to [www.heartshands.ca](http://www.heartshands.ca) or contact us at [info@heartshands.ca](mailto:info@heartshands.ca)
